EDUCATION

SRM Institute of Science and Technology

B.Tech, Computer Science & Engineering (AI & ML)

CGPA: 8.92

Chennai, India

May 2024 – May 2028

TECHNICAL SKILLS

Languages: C++, Java, Python, JavaScript, TypeScript

Frameworks: React, Next.js, Node.js, Express.js, Spring Boot, Flutter

AI/ML: Machine Learning, Deep Learning, Scikit-learn, TensorFlow, Keras, NumPy, Pandas, Hugging Face, NLP

Databases & Cloud: MySQL, MongoDB, Firebase, Microsoft Azure (DP-900 Certified)

Developer Tools: Git, GitHub, Postman, VS Code, Jupyter Notebook

Core CS: DSA, OOP, DBMS, Operating Systems, REST APIs

EXPERIENCE

AI & Machine Learning Intern

May 2026 – July 2026

Centre for Development of Advanced Computing (C-DAC)

Pune, India

- Contributed to an aircraft engine predictive maintenance initiative at C-DAC using the NASA C-MAPSS dataset
- Cleaned and processed multivariate sensor data, performing EDA using Pandas, NumPy, and Matplotlib
- Built, benchmarked, and reported ML/DL model performance (RMSE, MAE, MSE, R^2) for RUL prediction
- Iteratively tuned model architectures and hyperparameters across experimental runs to improve prediction accuracy

Full Stack Developer Intern

May 2025 – July 2025

Vital Skills, in collaboration with Tech Kriti, IIT Kanpur

Remote

- Shipped full-stack features for SynergyHub using the MERN stack, including REST API integration

PROJECTS

Aircraft Engine Predictive Maintenance (ML & DL) | *Python, Scikit-learn, TensorFlow, Keras*

- Built an end-to-end RUL prediction pipeline on the NASA C-MAPSS turbofan degradation dataset
- Built seven ML/DL models: Linear Regression, Random Forest, ANN, CNN, RNN, LSTM, GRU
- Benchmarked model performance using RMSE, MAE, MSE, and R^2 to identify the best-performing architecture

Bearing Fault Classification using Machine Learning | *Python, Scikit-learn, NumPy, Pandas, Matplotlib*

- Developed and evaluated Random Forest and Gradient Boosting classifiers for bearing fault detection

Modern Banking Application | *React, Next.js, TypeScript*

- Engineered a full-stack banking application in Next.js and TypeScript for account and transaction workflows

CERTIFICATIONS

- **Microsoft Certified: Azure Data Fundamentals (DP-900)** • Full-Stack Web Dev Bootcamp (Udemy) • Generative AI Foundations (upGrad) • NPTEL: Java, OOP, DBMS

PUBLICATIONS

- **Phishing Website Detection Using Attention-Based Deep Neural Networks** – Published in Springer Nature Conference Proceedings, Co-author & Presenter, 2025
- **AI in Social Media Marketing: Analyzing Trends and Predicting Consumer Sentiment** – IEEE Xplore, Co-author, 2025
- **Big Data in Healthcare: Predictive Modeling for Patient Outcomes** – IEEE Xplore, Co-author, 2026
- **AI-Driven Hiring Practices: Perceptions, Ethics, and Workforce Implications** – Taylor & Francis, Co-author, 2026

PATENTS

- **Smart Imaging Device for Crop Yield Estimation** – App. No. 456355-001, 2025
- **Agricultural Farm Automation Device** – App. No. 432501-001, 2024
